*Tentative dates
MUNDO (pronounced MOON-DOUGH) at The Ohio State University is a residential learning program and student group for Buckeyes who want to learn how to combine local, national, and global community engagement, experiential learning, and social change-based leadership into their college experiences here at Ohio State.

In addition to supporting the Multicultural Histories and Legacies of London and Rome Experience, MUNDO also will be providing various other "nontraditional discovery opportunities" for second-year students during 2016-2017.

**Highlights of these experiences include:**

**The MUNDO Global Connections Book Club**

Beginning in Autumn 2016, MUNDO second-year participants will have the opportunity to read and engage with key contemporary issues raised in both *The Complete Persepolis*, an autobiographical graphic novel by Marjane Satrapi that explores the radical personal and community changes she experienced during the Iranian Islamic Revolution, and/or *Detroit: An American Autopsy* by Pulitzer-prize winning journalist Charlie LeDuff, which serves as a cautionary tale related to urban change in America.

**The MUNDO Los Angeles Alternative Winter Break Experience 2016**

Beyond the images and illusion of Hollywood there are histories and legacies of life in Los Angeles and other Southern California communities that are often forgotten or not known. This hands-on service and learning experience will focus not only on the glamorous aspects of Tinseltown but also the more down-to-earth realities for the diverse array of communities and cultures that are represented by the region. This experience will feature opportunities to learn about the role Asian American, Latin@, and other local cultural groups have played in the history of L.A., meet with community leaders working to address issues such as poverty and community violence, and to take part in community service work designed to make a difference in the City of Angels and beyond.

**The MUNDO Off-Campus Survival Guide Series**

From finding a great off-campus apartment to mixing up something more than just Ramen noodles five nights in a row, this series of programs will provide helpful tips for transitioning from the residence halls to new spaces beyond campus. With help from Off Campus and Commuter Student Services, Student Legal Services, and expert student peers currently living off-campus MUNDO will provide monthly opportunities for participants to not only learn, but to also start planning their living arrangements beyond the residence hall experience.
